

Just when you thought the LSX 75 couldn't get any better, comes the all new LSX 75 Fly!

Borrowing from her big sister the 92, the LSX 75 line now offers the option of having a full flybridge, complete with a helm station and sunshade! But that's not all.

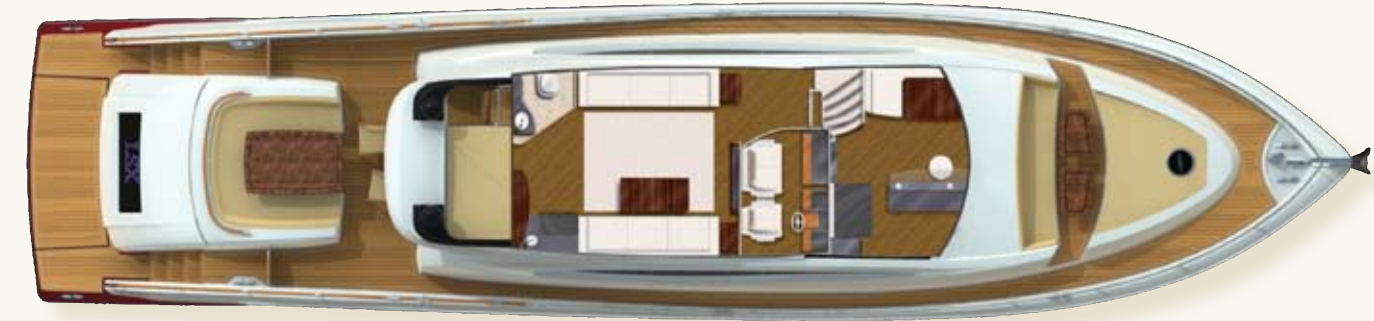

The new 75 options also feature a fore deck seating area with table and the signature "teak beach" with swim platform. When running the aft garage can amply store your tender or jetski, but at rest it converts into a sizable entertainment area, with deck chairs and even a television that deploys from the ceiling.

The new LSX 75 Fly. More innovations from Lazzara to enhance your enjoyment while at sea!

75
